LEALQUARTERS WAK

The detective force under Capt. O'Brien has succeeded in arresting six persons who are supposed to have been stronghold of the party.

Conserved in robbing a music store on which we have the stronghold of the party.

Well, Tammany has now "reorganconcerned in robbing a music store on East One Hundred and Twenty-fifth street last May. Two valuable violina were among the spoils, and a reward was offered for their return. This led to a curious incident. A man addressed Acting Captain O'Brien a few days ago mistaking him for Lawyer McLaughlin, and told him a friend desired to engage his services in obtaining a reward of fered for a lost violin. The detective raged the negotiation, and the rewas the capture of a gang of dolins, banjos and other property

Of course, the capture was a stroke of luck. It was due to the mistake in the identity of Lawyer McLaughlin, But the Central Office is making a boast of it, and should be given all the credit

But what a pity it is that the murderer of Mr. Borden's negro servant in so prevalent of late have not been traced their bold perpetrators.

It is well that "Red Callahan's" gang has been broken up. But the capture of the colored servant's assassin would be of greater value than the recovery of ufficient stolen violins to supply all th theatrical orchestras in New York.

A QUEER SORT OF CRUSADE.

Mayor Strong announced at Asbury I'ark last Sunday that during the two years and a half remaining of his term the crusade begun against "rum sellers" who "sell the stuff on a Sunday" will be "continued to the end," and predicted hat one year from now "every salcon in the city of New York will be closed on the Sabbath."

Pre ident Rocsevelt vesterday declared the war against Sunday beer would "go on forever or until the saloon-keepers surrender entirely." He was evident-ly not quite satisfied with last Sunday's

Mayor Strong is scarcely justified in the boast that the crusade against the people who "sell rum on a Sunday" will ontinue to the end of his term, when no such crusade has been attempted or will ever be attempted by him or by his clubmen, and the "rum-sellers" who 'sell the stuff on a Sunday" at the Union League and other clubs or at fashionable hotels will not be inter fered with in the future any more than hey have been in the past.

REORGANIZATION 1

Whatever may be thought of the Reform party, no one questions the fact that a great deal of disgust was justly felt with Tammany Hall prior to the political revolution in the city governnent. Not professional reformers, not guerilla politicians, not ambitious Mugwumps alone, but good, sterling Demo-crats, members of the Tammany organitation, as well as outsiders, revolted against the anti-Democratic policy of he Wigwam bosses, their selfish ab sorption of all the honors and profits. their close corporation management and their arbitrary action towards all who ventured to object to their policy and protest against their greed.

The hope of good, honest Democrats has been that the lesson taught by last year's election would induce Tammany liberalize its policy, throw open its doors, break up its Star-Chamber agement and again make the organization the rallying point of the city an Anarchist it becomes almost danger-Democracy. The main cause of last ous to call for the observance of the year's overthrow was the disaffection raide Tammany, not the opposition outside. Ex-Mayor Grant's vote was a splendid exhibition of personal esteem, O'Brien has succeeded in arresting six but it was wofully short of the legiti

Martin Dx-Mayor Gilroy again loomed into prominence. George W. Plunkitt again appeared handling the wires. Martin, Gilroy and Purroy were practically installed as the new bosses.

Will this be satisfactory to the peo ple? Will it strengthen the organization? Will it win? That is a question to be decided next November.

Boston's fervid appreciation of "Kismet," the "operatic comedy" that was produced last night at the Herald Square Theatre, had, of course, made their way to the metropolis.
